

## MD 140 at MD 91 Intersection Improvement Project

### Intersection Improvement Project Moving Forward

The Maryland Department of Transportation State Highway Administration invites you to attend a public open house regarding a project to improve access from westbound MD 140 (Baltimore Boulevard) onto southbound MD 91 (Emory Road).

The purpose of the project is to improve traffic operations and safety for bicyclists and motorists. The project team is proposing to eliminate left-turn access at the intersection and construct a new turning movement on westbound MD 140 at Michele Brauning Drive. The new configuration will direct motorists to use Michele Brauning Drive to connect to southbound MD 91. The project design also includes new bicycle lanes along MD 140. The project is scheduled to start late 2024 and be completed near the end of 2025.

**The State Highway Administration will hold a public open house to announce the project on Thursday, September 14, 2023, from 6–8 p.m. at Carroll County Public Library – Finksburg Branch.**

This meeting will provide attendees an opportunity to view design details. Maps and displays will highlight the proposed improvements, and State Highway Administration representatives will be available to listen to your feedback and answer project-related questions. This information will be used to improve and advance project development. There will be no formal presentation. **You may arrive at any time during the open house hours and walk through the display area at your own pace.**
